"WORLD IS ON VERGE OF GREAT EPOCH" MEXICO PROTESTS RETURN OF SHIPS

MARINES LANDED MESSAGE STATES

Railway Men Declare That
"Sovereignty Has Been
Violated."

(By the Associated Press)
WASHINGTON, July 12.—Protest against the return of American warships to Tampico harbor was telegraphed today by the Railroad Society of Mexico to President Gompers of the American Federation of Labor.
"We Mexican railroad men belonging to the confederation of societies in service on Mexican railways," the message said, "wish to protest with all our energy to your brotherhood workers of the United States against the attitude shown by the government of the United States by sending men of war to the port of Tampico, committing thereby a violation of the sovereignty of the Mexican republic."
The message asserted that the ships had "disembarked American marines in Tampico without waiting for the acquiescence of the port officials."
It has not been reported that marines from the cruiser Cleveland or the gunboat Sacramento have been landed under arms. Mexico City dispatches recently told of liberty parties of marines and sailors having been ashore.

Fool the Heat and Sleep on Roof New Motto in Muskogee

(By the Associated Press)
MUSKOGEE, July 12.—(Special)—Roof garden sleeping porches promise to become the rage among Muskogee apartment dwellers if the weather man keeps up the pretense that this is a section of the torrid zone.
The "roll your own bed on the roof" movement has started by the young women who work in the county courthouse, who found several nights ago that the important function known as beauty sleep had no chance at all in the one-room apartment.
Reflecting that there was no clause in their lease specifying that they had to sleep in their own room and that the city ordinance, forbidding after-hours loafing in the parks made no reference to the roof of an apartment house, they acted at once.
Literally picking up their beds, they migrated to the roof where they slept in undisturbed comfort until the sun, at an early hour reminded them that the roof garden sleeping is, at best, a short lived ecstasy in the morning.
Several apartment house dwellers are contemplating now turning their respective apartment buildings into communistic sleeping porches and so defy the weather man's dictum that this is the hottest summer Muskogee has ever known.

Ruff Necks Baseball Club Meets Roff in Mix This Afternoon

Ada Ruff Necks, an amateur baseball club of this city, left this afternoon for Roff where they plan to mix it with the Roff ball club this afternoon. John Cover is in charge of the new club at this time.
Those who will compose the team this afternoon are Rutledge Williams, Lefty Wanner, R. Wanner, Mac Millan, Roach, Frisco Vernon, Fain, and O. Vero. It is believed that with this line-up the Ruff club will be handed a shutout.

MEASURER HELD UP AND ROBBED OF \$1735

(By the Associated Press)
CHICAGO, July 12.—Two armed men stepped out of an alley at noon today, snatched a \$1735 pay roll from 16 year old Carl Czerniak, a messenger for a commission house, and escaped. A girl was struck in the face with a revolver by one of the men but ran to her home and reported the robbery.

CHICAGO LAWYER AND INVENTOR PASSES AWAY

CHICAGO, July 12.—J. W. Beach 77 years old, inventor of the pneumatic tube and well known Chicago attorney, died here last night. Some years ago he lost \$20,000,000 damage suit against the government for alleged breach of contract growing out of a plan to install experimental pneumatic tube mail service.

Boll Weevil Has Many Families In Season, Hill Says in Recent Report on Big Menace to Cotton

Statistics showing how the boll weevil problem in Oklahoma is made more complex by the fact that eggs hatch in two to three days, that only two to three weeks are required for the complete development of the weevil, and that there are about three or four generations of the insect in one summer, were submitted today by J. B. Hill, county farm agent.
After considerable research on the question, Mr. Hill has compiled a complete history of the life of the boll weevil.
"The life history of the weevil is briefly as follows: it passes the winter in the adult stage under cover of plant growth. It appears generally when the plumes of the cotton plants begin to develop, feeding on them and later on developing squares in which the female deposits her eggs. Each female deposits about 140 eggs, only one being placed to the square, ordinarily. In addition to egg punctures are food punctures which also cause the squares to flare and drop to the ground. The eggs hatch in two or three days. The larva feeding on the inside of the squares develops in the pupal stage in about a week to twelve days. After pupation, which consists of about three to five days, the insect emerges from the square as an adult. The entire life history is complete in two weeks. There are about three or four generations a summer in this state where the weevil is present.
Considerable information, including the method of control of the boll weevil by use of calcium arsenate, has been furnished Mr. Hill by the state entomologist at the Oklahoma Agricultural and Mechanical college, Stillwater.
Must Study Problem
Not always is it profitable to poison for boll weevil, according to information furnished by the county agent. Some "ifs" for poisoning have been outlined by Mr. Hill as follows:
"It will pay to poison—"If the weevils are really injuring your crop seriously, and if your land is sufficiently fertile to yield at least one-half bale per acre with weevil injury eliminated, and if your farming organization is such that you feel assured that the poison applications will be made at the right time and in the right manner, and if you are willing to spend the full amount necessary to provide an adequate supply of dusting machinery and poison."
The general gains from weevil poisoning under average, fairly favorable conditions seem to be from 200 to 400 pounds of seed cotton per acre, but owing to the variations in degree of weevil injury it is not safe to expect much more than the lower figure, he said. Hand guns, one-mule machines, and cart machines may be used. The formula for poison can be furnished farmers by the county agent.
Weevils Die in Heat
Brushes tied to the arch of cultivators to shake the cotton and knock off the squares punctured by the boll weevil is the prevailing attack being used by the farmers of the county, acting on Mr. Hill's advice. This is always an effective method and has been used for some time in all regions infested with the insect, according to the county agent. The weevil is characterized as a "sulky" insect which cannot live when once brushed down into the hot dust.
Discussing a "molasses treatment" which has been discovered by a Georgia negro recently and given wide publicity as the "only known effective means of fighting boll weevil" Mr. Hill declared he did not prefer to place any reliance on any plan which has not been tried out and recommended by the United States Department of Agriculture. "If there is anything to the plan, the Department will let us know," he said.

AMERICA AWAITS EUROPEAN REPLY

Official Acceptance of Disarmament Proposal
Expected Daily.

(By the Associated Press)
WASHINGTON, July 12.—Formal acceptance of President Harding's suggestion for an international conference here on disarmament and far eastern problems are still awaited at the state department today before plans for the session take definite shape. Informal communications from London and Paris continue, and officials here, however, that no opposition was offered there and press dispatches from Tokyo, though showing caution on the part of Japanese, foreign officials were not construed as indicative of any intention to reject the invitation.
It is assumed that official acceptance will be received within a few days. Thereafter a day will be decided on and plans as to the program of discussion be made out.
Until the preliminary meeting is held there will be no announcement of attendance but further indications of the purpose of the United States to bring far eastern questions to consideration has met approval.
Elimination of all problems characterized as harbors of irritation is regarded as essential to any discussion of disarmament. This feeling was included in the invitation.

OKLAHOMA MAN MADE OFFICER IN ELK ORDER

(By the Associated Press)
LOS ANGELES, July 12.—Selection of grand lodge officers and the convention city for the 1922 session was the work before the 57 annual convention of the Grand Lodge of the Benevolent and Protective Order of Elks here today.
William W. Mountain of Toledo, Ohio became Grand Exalted Ruler, succeeding Wm Abbott of San Francisco. Others who are to guide the destinies of the order through the coming year include Rex Walker, of Tulsa, Oklahoma, Grand Esteemed Lecturer Knight.

Better be safe than sorry. Advertise in the News Want Ad columns. Quite an idea, eh?

SHERIFF'S AUTO TAKEN IN NIGHT

Car Thieves Make Daring
Robbery and Escape
With New Car.

What officers declare to be one of the boldest strokes in criminal records of the county occurred last night when robbers broke into the garage of Sheriff Bob Duncan, 500 E. Thirteenth street, and stole his new Ford touring car. He bought the car July 1.
This is the second automobile robbery here within a week. Last Thursday night, thieves entered the garage of Postmaster J. W. Westbrook, 124 E. Fourteenth street, and took a Buick touring car, well marked. No trace has been found of either car in spite of rewards offered.
Sheriff Duncan said this morning he had no clue as to the direction the thief or thieves took with his car. Officers again sent out calls to towns in all directions from Ada in the hope of heading off the robber in his dash for escape. No trace was left as to the number of men and no clue to their identity remained, the sheriff said. A reward of \$50 for the car and \$100 for the thief has been offered.
The car had a dent in the radiator frame on the right side near the top, the left fender was slightly sprung, and the car had de-mountable rims. Officers were working all possible sources of information this morning in an attempt to get trace of the band of automobile crooks believed to be operating in the county.

Meadows Is Named Prohibition He a d for All of Oklahoma

(By the Associated Press)
WASHINGTON, July 12.—Appointment of William F. Meadows of Oklahoma City as federal director for the state of Oklahoma was announced today by the internal revenue bureau.
He will succeed John W. Reece with his headquarters at Stillwater, Oklahoma.

OKLAHOMA WEATHER
Tonight and Wednesday partly cloudy.

ENGLISH UNEASY AT IRISH RIOTS

Rejoicing in Britain Is
Curbed By News of
Belfast War.

(By the Associated Press)
LONDON, July 12.—Satisfaction felt by the people of England over the arrangement of the meeting on Thursday between Eamonn De Valera, Irish republican leader, and Premier Lloyd George, was tempered by apprehensions today over the situation in Belfast. The rioting which began in that city on Sunday continued yesterday with diminished severity and while there were instances of violence yesterday in various parts of Ireland the center of apprehension is Belfast.
Irish Off to London
(By the Associated Press)
DUBLIN, July 12.—Irish republican leaders chosen to participate in the conference to be held with the British government authorities in London Thursday left this morning for London. They are Eamonn De Valera, leader of the Irish republicans; Arthur Griffith, founder of the Sinn Fein, and Austen Stack and Robert C. Barton, the last two being Sinn Fein members of the British Parliament.

CONTRACT IS LET FOR TUBERCULAR HOSPITAL

(By the Associated Press)
OKLAHOMA CITY, July 12.—Contracts for detailed plans and specifications for the remodeling of the University hospital, the construction of an administration building and the building of a tuberculosis sanitarium for former servicemen at Sulphur were signed by the Oklahoma Soldiers' relief commission Monday with Neider and Joyce, the firm of architects previously chosen.
The commission met at the capital to take final action on these plans and members predicted that they will be finally accepted and bids advertised by August 1.
Joe P. Randolph of Oklahoma City was elected chief clerk of the commission. He will open offices immediately at the state house for the commission, which will administer, during the coming year, more than \$1,000,000 for aid of former service men.
In addition to his capacity as a trained office man, the chief clerk holds a degree in engineering from the University of Arkansas. He came to Oklahoma City seven years before he enlisted in the army.

THREE FINED BY MAYOR TODAY IN CITY HEARINGS

Three cases were reported in police court today. Harrison Clark and Ethel Frazier were arrested for consorting. Each was fined \$14.75. On default of payment of the fines, both were committed to jail.
I. H. Clark was arrested for being drunk, found guilty and fined \$8.75, which he deposited in the city treasury. The mayor reports a smaller business during the months of May and June than he has had for many months past.

RED CROSS RELIEF IS TURNED TO CIVILIANS

Relief work among former service men is coming to be of less importance than during the last few years in Red Cross work, according to Mrs. Orville Snead, who is in charge of the work for the local chapter. It is resuming its class is responding to the help offered by the Red Cross in steadily increasing numbers.
Mrs. Snead says that while many applications from former service men are still coming in, she has more and more to do in helping those who cannot fully support themselves, finding employment, which is coming to be one of the greatest problems she has to face, and various other ways in which the Red Cross can aid.

The man who invented a want-ad was on to his job. It is the quick road to results. Try one. Want to buy a home? Turn to the want ads.

BATTERY RANKS ARE NEAR FULL

Mustering Officer May Be
Called to Ada Today
to Start Unit.

Sixty-two men were signed up and had passed physical examinations for Battery "F", Oklahoma National Guards, now being organized here, a late report this afternoon said. This is eleven men more than the minimum required for forming a battery in Ada.
With indications pointing this morning to a certainty of getting the required number of men today for the establishment of Battery "F" of the Oklahoma National Guard here, preparations were being made to telegraph the adjutant general at Oklahoma City to send a mustering officer to Ada to organize the unit.
Although several attempts have been made to organize a branch of the Oklahoma National Guard here, this is the first time that the formation of a unit has been assured, men interested in the unit said this morning. Early today, 48 men had been examined and passed for guard service and only 51 are needed. Others were scheduled to take the examinations later and the number will easily run over the quota, Herbert Felix, assisting in forming the guard battery, said.
"Only technicalities this morning in the way of finishing preliminary organization was the examination of a few candidates by a local doctor. This will be rushed through as rapidly as possible."
Need Two Cooks
The battery now needs two cooks for encampment duty and a horse-shoer for steady service. There is a permanent job open for a horse-shoer and a salary of \$70 to \$90 a month together with clothing and a place to sleep will be given, officers said.
All non-commissioned officers of the battery will be selected from the men who enlist for duty. Commissioned officers will be taken from local men who held commissions during the war. Robert Kerr, who is leading in recruiting the battery, is listed for the captaincy and Herbert Felix for a first lieutenant. Kerr was a first lieutenant during the war and Felix was a second lieutenant in the ninth regular army motorized field artillery. The battery will have either two first lieutenants and a second or two second lieutenants and a first, it is believed.
Equipment will be forwarded for use of the local battery as quick as men are mustered in and a camp will be arranged soon.

SCOUTS WILL GET BADGES AT LODGE

Ada Boy Troops Ready for
Opening Lodge at 5
This Afternoon.

Late today members of the Ada Boy Scouts will become proud possessors of badges representing the first steps of scouting to the highest place obtainable, the Eagle Scout. Four boys have attained this position and several more are preparing to pass the remaining tests in the near future. The program prepared for this evening at the City lake is expected to be interesting and all parents, friends and relatives are invited to come out to the lodge opening.
Boys have been busy at the lodge today putting things in readiness for the occasion. The awarding of badges promises to be the most interesting feature of the evening. More than 175 merit badges alone will be awarded, some of the boys having earned as many as 25 badges. Prominent men of the city will be present to deliver addresses at this time. Music by the band will also be enjoyed.

Spigler Jury Drawn

(By the Associated Press)
SPIGLER, Okla., July 12.—When a recess was taken at noon today eleven men had been tentatively accepted by the state for jury service in the trial of Charles W. Harrell, 63, married, charged with the murder of Mrs. Tina Davis, widow in this city in 1913.

BRITISH GOVERNMENT PLEDGES TO PUSH CONFERENCE TO ITS LIMIT

House of Commons Breaks Into Cheers When Lloyd-George Swears Allegiance of England in Carrying Out Program of World Disarmament; Canada Is Hopeful.

(By the Associated Press)
LONDON, (Canadian Press), July 12.—The world is on the eve of one of the most epochal events in history.
This is the verdict of the newspapers and the statement follows the announcement of President Harding's offer and the British government's acceptance, in connection with the holding of a conference for the discussion of the limitation of armament and the Pacific problems. The scene in the house of commons yesterday afternoon when Premier Lloyd-George announced Great Britain's acquiescence in the proposal was a memorable one. The premier spoke to a hushed and crowded chamber and when he declared that the government welcomed such a move and would do its utmost to make a success, there was a crash of applause from all quarters, which in the opinion of old journalists in the press gallery has never been equaled since the announcement of the armistice with Germany.
Mr. Lloyd George spoke with earnestness on the worthiness of the momentous offer and placed great emphasis on the declaration that if the conference failed it would not be because the British Empire withheld its support.
Downing street and the foreign office pulsed with activities throughout Monday, numerous conferences being held. In the afternoon after the British prime minister made his statement to the house of commons, the conference of premiers went into session.
The British press was unanimous in stating that President Harding's offer was made possible only by the conference of premiers which laid the foundation for what has been done.
The London Times carries the following statement from Arthur Meighan, the Canadian premier, who will represent Canada at the Washington conference.
"It was with great satisfaction that I learned of President Harding's notable announcement. To a distracted world it offers a new hope and a promise of relief from the uncertainty and apprehensions that have clouded the future. They will be welcomed here more eagerly than in Canada for it has been the unwavering belief of Canada that the issues involved in the discussion of armament, as well as the closely connected problems of the Pacific and the far east, can best be settled by full and frank consultation among the nations concerned, that is, by the method of free conference. Their belief is based on experience with this method in the new world and will unquestionably seek the means to insure the success of the momentous proposal made by the president of the United States in the name of his country."
While the conference is not likely to take place before two months the Dominion premiers will probably cut short their deliberations here and return home to prepare for it. Discussion of these problems is not out of the question and it is not likely that anything of importance will be done in regard to constitutional change.

NATIONS CONFER ARMISTICE DAY?

Session on Disarmament
May Lead to "Association," Belief.

(By the Associated Press)
WASHINGTON, July 12.—Favorable responses are understood to have been received from all but one of the powers to which the United States has suggested a conference on reduction of armament and related interests.
Although so far nothing has been said in the negotiations as to the details, administration officials have been so encouraged by the attitude of other nations that they have already given some attention to such questions as what date it shall begin. One suggestion prominently under consideration is that November 11, Armistice day, be selected.
The exact subject to be taken up at the conference is understood not to have received any detailed consideration, but officials said that they feel no reason why the conversation should not logically lead to the plan for the association of nations advocated by President Harding.

BLACK ROT REPORT MAKES WHEAT JUMP

(By the Associated Press)
CHICAGO, July 12.—Anxiety in regard to reports of black rot and hot weather damage in the spring crop had the effect of making wheat prices jump today. The rise amounted to almost seven cents in some cases. September delivery touching \$1.24 3-4 as against \$1.18 at yesterday's finish.

Gasoline Prices Down

Gasoline now is 21 cents a gallon here. This price represents a two-cent drop since Saturday. One cent of every 21 cents received for gasoline here goes to the Good Roads club. According to one local dealer the price should come down more, but this is uncertain. Prices in Texas and in other parts of Oklahoma are much below those here, it is said.

ORDINANCE NO. 465.

(Published Sept. 22, 1921)

An ordinance levying assessments for the cost of paving and otherwise improving of Street Improvement District No. 7, same being the east and west alley in block 99, from the west line to the east line of said block, in the original plat of the City of Ada, Pontotoc County, Oklahoma.

Be it ordained by the Board of Commissioners of the City of Ada, Pontotoc County, Oklahoma; that,

Section 1. Whereas, the Board of Appraisers heretofore appointed by resolution to appraise and apportion the benefits resulting from the paving, grading, curbing, draining and otherwise improving of the alley described in the title of this ordinance to the several lots and tracts of land liable to assessment for the payment of the cost of such improvements, which costs have been ascertained to be the sum of Three Thousand Four Hundred Fifty-nine and 68-100 Dollars (\$3,459.68), have performed their duties according to law as such appraisers, and have returned and filed with the City Clerk of said city the reports of their appraisal and apportionment; and,

Whereas, after filing the same, the Board of Commissioners did appoint a time for the holding of the session of such Board of Commissioners as a Board of Review to hear and consider any and all complaints or objections concerning such appraisements and apportionment and caused due notice of such session to be published as provided by law, and in pursuance of such action and publication, the Board of Commissioners duly convened as such Reviewing Board on the 13th and 15th days of September, 1921, and all as shown by minutes of meeting of said Board of Commissioners of the City of Ada, Oklahoma; and,

Whereas, at said sessions the Board of Commissioners as a Board of Review heard all complaints and objections made to such apportionments and assessments as returned by the Board of Appraisers and did adjust and review such assessments and apportionments as they found unjust, erroneous or not in accordance with the benefits accorded to such lots, tracts and parcels of ground affected by such improvements; and thereafter by resolution passed and adopted on the 15th day of September, 1921, did confirm such apportionments and assessments so revised, adjusted and corrected by said Board of Commissioners in manner and form as required and authorized by law; and,

Whereas, all legal requirements have been fully complied with to authorize the levying of assessments to pay the costs of such improvements against the several lots and tracts of land liable to such assessments;

Now, therefore, there shall be and there is hereby levied and assessed against the several respective lots and tracts of land of said Street Improvement District described in the title of this ordinance with the amounts respectively stated in said report of the board of appraisers as reviewed and confirmed and as follows, to-wit:

Section 2. That the assessment hereby levied against the several lots and tracts of land shall bear interest at the rate of seven (7) percent per annum and said assessments shall be payable in ten (10) equal installments, the first installment with interest upon the whole amount shall be due and payable on the first day of September, 1922, and one installment thereof with interest upon the whole amount remaining unpaid to said date respectively, shall be payable on the first day of September of each of the years 1922 to 1931, inclusive, provided, however, the owners of any lots and tracts of land so assessed shall have the privilege of paying the amount of their respective assessments without interest anytime within thirty (30) days from the date of the passage of this ordinance and provided further that the owners of the property upon which said work or any part thereof, not less than one block, shall at any time have been completed and approved, shall have the right to make payment of their respective assessments within thirty (30) days from approval of said work or any part thereof with interest upon said assessment at the rate of seven (7) percent per annum from the date of said assessing ordinance to date of payment, and provided further that if the work for which any property owner proposes to pay his entire assessment with interest has not been completed and approved within four (4) months from the date of this ordinance, then four (4) months interest only shall be added to said

assessment, and the owners of said property shall have all other options as provided by Chapter 10, Article XII, of the Revised Laws of the State of Oklahoma, 1910.

Section 3. That an emergency exists for the preservation of the public health, peace and safety, by reason whereof this ordinance shall take effect from and after its passage, approval and publication.

Passed and the emergency clause ruled on separately and approved this 15th day of September, 1921.

CITY OF ADA, OKLAHOMA.
By Gary Kitchens, mayor and commissioner of public justice and safety.

(Seal) Attest: W. B. Jones, city clerk and commissioner of accounting and finance.

ORDINANCE NO. 466.

(Published Sept. 22, 1921)

An ordinance levying assessments for the cost of paving and otherwise improving of Street Improvement District No. 8, same being South Stockton avenue from the south line of Main street to the south line of Twelfth street, including street intersection and alley crossings on the above described avenue in the City of Ada, Pontotoc County, Oklahoma.

Be it ordained by the Board of Commissioners of the city of Ada, Pontotoc County, Oklahoma; that,

Section 1. Whereas, the Board of Appraisers heretofore appointed by resolution to appraise and apportion the benefits resulting from the paving, grading, curbing, draining and otherwise improving of the avenue described in the title of this ordinance to the several lots and tracts of land liable to assessment for the payments of the cost of such improvements, which costs have been ascertained to be the sum of Twelve Thousand Five Hundred Forty-three and 55-100 dollars (\$12,543.55), have performed their duties according to law as such appraisers and have returned and filed with the city clerk of said city the reports of their appraisal and apportionment; and,

Whereas, after filing the same, the Board of Commissioners did appoint a time for the holding of the session of such Board of Commissioners as a Board of Review to hear and consider any and all complaints or objections concerning such appraisements and apportionment and caused due notice of such session to be published as provided by law, and in pursuance of such action and publication, the Board of Commissioners duly convened as such reviewing board on the 13th and 15th days of September, 1921, all as shown by minutes of meeting of said Board of Commissioners, of the City of Ada, Oklahoma; and,

Whereas, at said sessions the Board of Commissioners as a Board of Review heard all complaints and objections made to such apportionments and assessments as returned by the Board of Appraisers and did adjust and review such assessments and apportionments as they found unjust, erroneous or not in accordance with the benefits accorded to such lots, tracts and parcels of ground affected by such improvements; and thereafter by resolution passed and adopted on the 15th day of September, 1921, did confirm such apportionments and appraisements so reviewed, adjusted and corrected by said board of commissioners in manner and form as required and authorized by law; and,

Whereas, all legal requirements have been fully complied with to authorize the levying of assessments to pay the costs of such improvements against the several lots and tracts of land liable to such assessments;

Now, therefore, there shall be and there is hereby levied and assessed against the several respective lots and tracts of land of said Street Improvement District described in the title of this ordinance with the amounts respectively stated in said reports of the board of appraisers as reviewed and confirmed and as follows, to-wit:

Section 2. That the assessment hereby levied against the several lots and tracts of land shall bear

interest at the rate of seven (7) percent per annum and said assessments shall be payable in ten (10) equal installments, the first installment with interest upon the whole amount shall be due and payable on the first day of September, 1922, and one installment thereof with interest upon the whole amount remaining unpaid to said date respectively, shall be payable on the first day of September of each of the years 1922 to 1931, inclusive, provided, however, the owners of any of the lots and tracts of land so assessed shall have the privilege of paying the amount of the respective assessments without interest anytime within thirty (30) days from the date of the passage of this ordinance and provided further that the owners of the property upon which said work or any part thereof, not less than one block, shall at any time have been completed and approved, shall have the right to make payment of their respective assessments within thirty (30) days from approval of said work or any part thereof with interest upon said assessment at the rate of seven (7) percent per annum from the date of said assessing ordinance to date of payment, and provided further that if the work for which any property owner proposes to pay his entire assessment with interest has not been completed and approved within four (4) months from the date of this ordinance, then four (4) months interest only shall be added to said

assessment, and the owners of said property shall have all other options as provided by Chapter 10, Article XII, of the Revised Laws of the State of Oklahoma, 1910.

Section 3. That an emergency exists for the preservation of the public health, peace and safety, by reason whereof this ordinance shall take effect from and after its passage, approval and publication.

Passed and the emergency clause ruled on separately and approved this 15th day of September, 1921.

CITY OF ADA, OKLAHOMA.
By Gary Kitchens, mayor and commissioner of public justice and safety.

(Seal) Attest: W. B. Jones, city clerk and commissioner of accounting and finance.

ARID REGIONS HOLD VAST WEALTH STORE

(By the Associated Press)

ST. PAUL, Minn., Sept. 22.—

Railroads and business men are losing millions of dollars of potential business each year because of lack of well planned efforts to colonize reclaimed arid and swamp lands of the country.

F. H. Newell, consulting engineer of the United States Reclamation Service, declared in an address before the tenth annual meeting of the International Drainage Congress which opened here today.

"Thousands of acres of good reclaimed lands are lying unutilized in spite of enormous expenditures made by the government in irrigation and drainage work," Mr. Newell said. "This is because we have no proper system of colonization."

"For the most part, these reclaimed areas have passed into control of large land owners, that is, of men who are land poor and who are unable to utilize these lands and who are unwilling to sell them at a price such as to make it practical to colonize them."

"The dreaded evils of death, taxes, high freight rates, weeds and pests," he declared, "have come to be considered by some bankers and business men of those reclaimed regions as blessings in disguise—death to break up the large holdings of these men who are keeping the reclaimed lands out of cultivation; taxes to force further subdivision; high freight rates to keep the forage and grain on the farm where it can be worked over into more profitable form; weeds and pests to enforce better cultivation, and prevent the careless methods now employed."

Mr. Newell asked the congress to embody in its discussions and conclusions the experiences and best results of Wisconsin and parts of Canada, which he said, had attracted many settlers to their lands by taking an interest in their success.

BABY BORN ON PEACE DAY

After Mother Had Been Restored to Health by Lydia E. Pinkham's Vegetable Compound

Salisbury, Mass.—"For seven years I had a female trouble and such bearing-down pains I could hardly do my housework. The doctor said, 'If you can have another baby it might be the best thing for you but I am afraid you cannot.' I began taking Lydia E. Pinkham's Vegetable Compound and my baby was born on 'Peace Day'. If women would only take your Vegetable Compound they would have better health. I always recommend your Vegetable Compound to the neighbors."

Mrs. TRACY PATTER, 2 Lincoln Ave., Salisbury, Massachusetts.

The experience of maternity should not be approached without careful physical preparation, as it is impossible for a weak sickly wife to bring healthy children into the world.

Therefore if a woman is suffering from a displacement, backache, inflammation, ulceration, bearing-down pains, headaches, nervousness or "the blues" she should profit by Mrs. Patten's experience and take Lydia E. Pinkham's Vegetable Compound and be restored to health.

Commercial Printing with class is the kind you get at the Ada News Print Shop. Prices are as low as excellent work will justify.

RAGS! RAGS! RAGS!

The Ada News wants rags—cotton rags. We want them clean but some two-thirds clean might be accepted. Why not gather up all the waste rags about the place and send them down and get FIVE CENTS A POUND. Don't crowd—Room can be made for you, however.

RINGWORMS ON FACE AND NECK

For Two Years. Itched and Burned. Face Disfigured. Cuticura Healed.

"My face and neck became rough and full of pimples. After a couple of weeks the pimples turned to ringworms and my face was covered. They itched and burned so that I could hardly do my work, and my face was badly disfigured."

"The trouble lasted about two years. I saw Cuticura Soap and Ointment advertised and sent for a free sample which helped me. I purchased more and after using two cakes of Soap, together with the Ointment, I was healed." (Signed) Miss Caroline Morris, Carrboro, No. Car. Make Cuticura Soap, Ointment and Talcum your daily toilet preparations and watch your skin improve.

Samples Each Free by Mail. Address: "Cuticura Laboratories, Dept. R. Boston 25, Mass." Sold everywhere. Soap, 5¢; Ointment, 10¢; Talcum, 10¢. Cuticura Soap Shaves without lather.

MAN IS KILLED, WOMAN HURT IN TULSA TRAGEDY

(By the Associated Press.)

TULSA, Sept. 22.—One man dead and a woman probably was not live as the results of a shooting affair which occurred on the eastern fringe of the town early today.

Stephens Tripp shot and killed J. W. McClure with a rifle after McClure had invaded his home and fired a revolver bullet through Mrs. Tripp's breast, according to police.

Mrs. Tripp is at a local hospital paralyzed from the chest down, the bullet having passed through one lung and penetrated the spinal column. Tripp was taken to the county attorney's office for examination this morning, after he stayed with police authorities the rest of the night following the shooting. No charge was brought against him at police headquarters.

Bank Cashier Missing (By the Associated Press.) PITTSBURG, Kan., Sept. 22.—The Farmers State Bank of McCune was closed today by the state bank examiner. An examiner is in charge. E. S. Dolson, cashier of the bank, is missing.

The Ada Weekly News reaches almost every farm home in the county. Are you taking advantage of this effective means of getting your message abroad? What do you have to sell to farmers? Try it.

COLUMBIA WOMAN REVEALS FACTS

"I was run down with rheumatism, had nervous breakdown with stiffness and swelling of the joints so bad I could not move without great pain," said Mrs. Fannie Thurman, residing at 106 W. Ash St., Columbia, Mo. "I read an advertisement for Mendenhall's Number 40," she continued, "and decided to try it. After taking two bottles the stiffness and pains have left me and I feel as supple as a child. I am sending you this letter for publication as I think every sufferer should hear of the wonderful merits of 'Number 40.'"

"Number 40," is recommended for blood troubles from any cause; chronic constipation, rheumatism, indigestion, stomach and liver troubles, eczema, skin troubles, etc. Acts on the liver, removing waste matter from the system, thus cleansing the blood of all impurities and doing away with the need of cathartic pills and tablets.

OBITUARY

Edgar Clare Davidson.
Edgar Clare Davidson, whose untimely death came last Sunday, was born at Heber Springs, Ark., on August 27, 1893. When he was seven years old, his father moved to Ada, then Indian Territory, and he lived here until his death.

He has been a loyal and faithful member since his connection, and has done all he could to further the cause of Christian citizenship.

For some time he has been employed by the Shelton Furniture company and was beginning to rise rapidly when death took him.

The deceased is survived by his wife and little daughter, Emma Gene; his father and mother, Mr. and Mrs. George Davidson; five brothers, Ollie, Otie and Tom of Ada, Frank of Las Cruces, New Mexico, and George of Sand Springs Oklahoma and one sister, Mrs. J. A. Lively of Dierks, Ark. Many relatives and friends also mourn his loss.

GUARDS MAY GET SHELTER HOUSES

Each City Unit Will Have Place for Squad Class, Is New Plan.

(By the Associated Press)

OKLAHOMA CITY, Sept. 21.—The scope of training which national guard troops in Oklahoma will receive under the new regime to begin as soon as the order is published, is contained in a general order made public today at national guard headquarters here.

This order, sent out from the office of the senior instructor, besides outlining the block system which is to be put into use immediately through the enforcement of an earlier portion of the same order, contains complete information on different subjects to be mastered by guardsmen outside of the usual infantry drill.

Plans also are under way for the formation of club houses for guardsmen in each city which has units assigned, it was announced, as the men have expressed a wish for some place to meet informally and discuss their systems and blocks, which are "squad" classes.

Instruction will be given the infantry and artillery in signal work, including arms and rifle signals, whistle and bugle signals, and in all systems now used in semaphore and verbal signalling.

Military courtesy occupies a place on the instructional program with saluting, courtesy and care of uniform contained in the block.

In training for bayonet drill, guards, thrusts, parries, defenses and dummy and bayonet ran practice are given.

Get Physical Drill.
All forms of physical training, including physical drill, boxing, per-

sonal combat, mass athletics, jumping, running, swimming, and Jiu Jitsu instruction are scheduled. The guardsmen will receive interior guard duty instruction, and classes will be held in map reading and making, topography, and a number of technical subjects.

In the howitzer area, instruction on the 37mm gun, with gun drill tactics, and the kinds of fire, and fore orders is to be given all the infantrymen, who also will receive instruction on the Stokes Motor, first taking up the nomenclature and mechanism, care and repair of arms.

All headquarters companies are to be furnished with a copy of the latest table or organization of their unit, and the members of this organization are to be required to devote fifty percent of the drill period to work in the different classes or blocks, as prescribed for the infantry companies. The balance of the time is to be used in practical work by each individual in his own specialty, the report states.

CHURCH SURPLUS SEEN BY BAXTER

Many Varieties Constitute Hindrance One to Other, Doctor Asserts.

PITTSBURGH, Sept. 22.—One of the greatest difficulties confronting the church lies in the fact that there are 175 varieties of churches in America, Dr. Baxter P. Fullerton, of St. Louis, told the World's Alliance of Presbyterian and Reformed Churches here today.

Dr. Fullerton is secretary of the Presbyterian Board of Home Missions and was telling of the difficulties of home mission work in the United States. Denominationalism, he said, was one of the greatest and most serious of these. Each of the 175 kinds of church was endeavor-

The lower prices don't tell the story

The price isn't even an important part of the story. The facts that come before the price are the real thing.

Hart Schaffner & Marx clothes are better now than ever; the handicaps of war restrictions are removed; finer fabrics, better tailoring and prices much below those of a year ago.

We're marking our prices even lower than normal. We want to; you get more value than usual.

See our Mallory Hats at \$5
Howard & Foster Shoes at \$10

Harris Hotel Bldg.
Ada, Oklahoma

ing to promote its own work both in the city and the country, among native and immigrant alike and, consequently, there was not only overlapping but also overlooking since there had been no co-operation in the location and development of these various local churches.

Continuing he said that the greatest problem before the agencies of the Christian church is to "Christianize the church itself." He declared that there are communities in America where four or five different denominations are at work each church receiving home mission aid, when one or two churches could be both self-sustaining and self-respecting.

Efforts had been made, he said, to change this "shameful situation" but up to the present it existed "to the embarrassment of the work and a scorn of the ungodly." An attempt had been made to unite denominations having similar doctrine and government into one larger unit and in this way unite the local churches into one for better service for the community, but Dr. Fullerton said that extreme denominationalism prevents any very large application of this principle and strong peoples remain apart because of some unimportant or subsidiary question on which the salvation of no soul or community depends.

"It is apparent, therefore," he went on, "that this larger union will never be accomplished until the kingdom of God bulks larger in the minds of people than the church, until the salvation and service of mankind becomes a greater concern than the establishment of a specific church."

"This duplication of churches is not only harmful to the cause but is also a useless waste of both money and men."

Dr. Fullerton said it was heartening to know that this condition of things was being considered seriously by churches and missionary agencies and pointed out that the organization of a Home Mission Council and Council of Women for Home Missions 14 years ago had become an outstanding evidence of a spirit co-operation prevailing in the churches.

Utah Is Example.
He pointed to the condition in Utah as an illustration of what had been accomplished by the Home Missions Council and said that today there were no communities in that state where two or more Gentile churches were at work except in the cities of Salt Lake and Ogden. Similar organizations for interdenominational home mission work had been made in Colorado, Montana, Porto Rico, Cuba, Alaska and Santo Domingo.

Despite the hindrance of denominationalism, Dr. Fullerton reported that the spirit of evangelism prevailing in America was one of the most hopeful signs of the time. Never in the course of a year had there been such an interest in bringing men into the church, he said.

He recounted the difficulties in attempting to Christianize and Americanize the polyglot peoples of the cities and held it to be the mission of the church as well as of the state to solve the problems of sanitation and housing.

He said that, according to best information, there are now 18,500 men and women engaged in some form of missionary work in this country and more than \$26,000,000 invested in the business of making and keeping America Christian for the redemption of mankind and the friendly service of the world.

Gridiron Men Stage Show in Chapel for Reviving "Old Life"

Football carried Ada High school by storm this morning for the first time this year when, with the opening game of the season but a day off, members of the team took charge of a special chapel for pigskin stunts.

Players on Coach Cox's first string who will leave tomorrow morning for Atoka to stage a season opener, appeared in full uniform which carried the entire high school back into its old enthusiasm for the game. Teams which Ada high school will oppose on the gridiron this year were represented by members of the second team who appeared on the stage battered and bandaged.

Captain Charles Cuning, captain of the Ada High school eleven, made a speech on prospects for the season, stressing the outlook for the opening game.

Coach C. R. Cox with a full outfit of men and substitutes will leave Friday for Atoka, the first regular battle on the year's schedule. In the first preliminary game of the season with Maud High school at the Fair Grounds during the county fair, Ada High opened her football guns for the year with a victory 6-0.

If you have something to sell, why not advertise it in the Ada Evening News? That is the quick and certain way to reach the buyers of Ada and other towns of the county? Want ads do not cost much.

FATHER AND SON TO GO ON TRIAL HERE TOMORROW

Unusual interest centers around the case of the state against D. C. Welch and Edward Welch, charged with assault with intent to kill Joe McElreath here several weeks ago, which, according to announcement Thursday morning from the county attorney's office, probably will go to preliminary trial before Justice of the Peace H. J. Brown Friday morning.

Twice the case has been set for hearing before Judge Brown and postponed because of McElreath's inability to appear in court. Tomorrow the case will go to trial regardless of whether all state witnesses are present, it was indicated today.

Although no authoritative statement of McElreath's condition was made today, it is thought by the county attorney's office that he is still not able to testify. Complications which set in after he had been stabbed to the heart left him in the grasp of partial paralysis. Blood which clotted on the brain, also, rendered McElreath unable to take the stand against his alleged assailants, doctors reported after the stabbing.

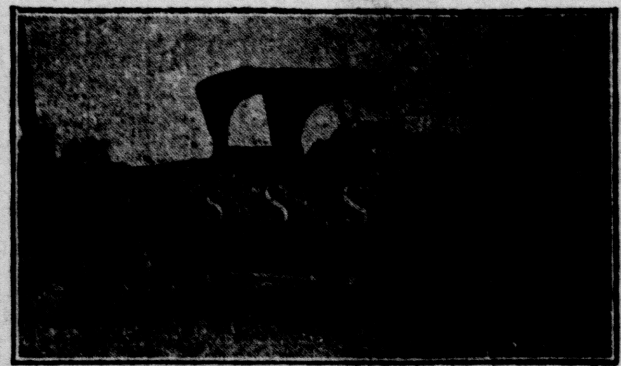

D. C. Welch and his son made cash bond when charges were filed against them following McElreath's partial recovery in the hospital here.

Alfred Summers and family were in from Maxwell today. Summers is one of the gin men of that community as well as a substantial farmer.

TO THE STOCKHOLDERS OF NORTH AMERICAN LIGHT & POWER CO.

The directors have voted dividends for the quarter ending October 1st, 1921, and checks for same will be mailed direct from home office at Chicago. All stock purchased prior to September 20th will participate in these dividends.

Don't Neglect YOUR AUTOMOBILE

You have too much invested to be negligent about minor repairs. You also have too much invested to be careless about who does your repair work.

We use none but skilled labor that can qualify on any make of car and for any class of work needed.

Auto Electrical Specialists

Ample storage room by day or month. Your car washed, greased and polished at very moderate charge. Give us an opportunity to figure your repair bill, we know we can save you money.

HEAVY LOSSES SEEN FOR SAN JUAN SUGAR

(By the Associated Press)
SAN JUAN, P. R., July 12.—Efforts of sugar producers and others to get together in some concerted effort to relieve the present depressed sugar situation so far have failed.
R. Aboy Benitez, president of the Sugar Producers association, has been in favor of the formation of a selling committee, the holding of sugars until better prices prevail, and an ending of the practice of shipping sugar to New York unsold to be kicked about at the market and finally purchased at any prices the refiners offer. Mr. Aboy Benitez, is of the opinion that unsold sugars in New York have helped bring about the unbroken drop in all sugar prices during the past few weeks.
While there are some other producers and others interested in the sugar business who agree with Mr. Aboy Benitez, there are apparently a large number of interested parties who are convinced that Porto

Rico sugars are too small a factor in the situation to affect the market one way or the other. They say there are 1,250,000 tons of sugar in Cuba ready for shipment.
With the gradual winding up of the grinding season in the island it has become apparent that there are more than 200,000 tons of sugar here available for shipment at a time when prices are lower than any time during a five-year period and meaning a loss on every pound of sugar sold.
It is generally estimated that an average cost of \$8 per hundred pounds for producing this year's sugar crop is conservative and that any price under that will mean a loss to most of the producers in the island. The crop is the most expensive ever harvested in the island, and the low prices which have prevailed have been particularly hard on the actual cane growers.
J. Ruiz Soler, Secretary of the Sugar Producers Association, who has recently been in the states and who said again on Wednesday, said that he did not know what the future market was going to be, but that he was opposed to any plan for holding sugars with the hope of a better market later on. Conditions were too uncertain for the adoption of such a course, in his opinion.

MEXICO LAYS CLAIM TO PACIFIC ISLANDS

(By the Associated Press)
SAN ANTONIO, July 12.—Contentions upon which Mexico may base her claims to a number of islands just off the coast of California in the Pacific ocean, which are now occupied by Americans and are under control of the United States, summed up in a report made to President Obregon by General Amado Aguirre, sub-secretary of Agriculture and chief of the commission making a study of the islands, according to an account in Excelsior, published in Mexico City. The report declares that the claim of Mexico to the islands is indisputable, but that the Mexican government is willing for the islands to remain under the American flag in return for foreign credit, the amount of which was not stipulated.
Included in the group of islands is Santa Catalina, of which William Wrigley, Jr., of Chicago, is the sole owner. Others are the Farrallones, San Miguel, Santa Rosa, Santa Vera Cruz, Anacapa, Santa Barbara, San Nicholas and San Clemente.
The arguments of General Aguirre in favor of Mexico's claims to the

islands, as published in Excelsior, are:
"The United States is not occupying them by right of discovery, because they were discovered in the 16th century by the Spanish navigator, Cabrillo, who gave them the names which they now bear."
"They are not occupied by right of purchase, as Mexico has never sold them to any person or nation."
"They are not occupied by right of conquest, for they were never conquered."

Prof. Montgomery Here

Prof. T. T. Montgomery, superintendent of the schools of Chickasha and member of the state board of education, was in Ada Monday and part of Tuesday, looking into conditions at the Normal. Prof. Montgomery has shown himself a strong friend of the local institution and has been instrumental in its getting many new features.
Before going to Chickasha, Mr. Montgomery was superintendent of the schools at Madill.

Mexican and United States Students to Exchange in School

(By the Associated Press)
LOS ANGELES, Calif., July 12.—Exchange of students between universities in Mexico and the United States, a plan fostered by business and educational workers in both countries, is being encouraged and recommended by President Obregon as a means of bringing about a better understanding between the two nations, according to advices received here.
In a communication from the Mexican president to Nelson O. Rhoades of Los Angeles, member of the committee having the plan in charge, it is said 150 offers from American universities to Mexican scholars have been received, that many of the opportunities already have been accepted, and that the young Mexicans have been sent to this country to study.
Recognizing the value of complete reciprocity, however, and the advantage of familiarizing the United States' representatives with Mexico, the Mexican president has asked that twelve professors from American universities visit Mexico to study archeology, Spanish, geology, Mexican history and other subjects. The visitors are to have their fare paid by the Mexican government and to receive the sum of 2,000 pesos annually.
"The Mexican government," the letter adds, "will authorize these privileges in exchange for the scholarship which the United States will give to our students. We will work in complete harmony with the committee that has been formed in furtherance of the exchange plan."

An Attractive Investment With Extra-Profit Opportunity

An 8% Convertible 20-Year Gold Note Offering by Shaffer Oil and Refining Company, Producers and Manufacturers of the famous DEEP-ROCK Oil Products—Discoverers of the Noted Cushing Pool, Oklahoma, in 1912

THIS is your opportunity to invest direct in a strong, independent oil company with a well demonstrated record of success—an organization representing a complete unit of the petroleum industry—production, refining, transportation and marketing.

The investment will give you a definite income of 8% a year, payable 4% every six months, and also the privilege of exchanging your Notes for the Company's Preferred or Common Stock. This conversion privilege provides full opportunity for you to share in the stockholders' profits during the next twenty years. In the event of exceptionally large profits, which we anticipate, the conversion privilege should prove extremely valuable.

This Note issue of \$1,000,000 is being sold for the purpose of developing additional production and extending the Company's manufacturing, transportation and marketing equipment. The Notes are being offered first to our customers and the friends of DEEP-ROCK gasoline, kerosene, oils and other petroleum products. We have many thousands of customers throughout ten leading states.

Notes May Be Purchased on Partial Payments

Our Note offering is being made to a large number of customers and others, and we believe that the present \$1,000,000 will be all taken in a short time. We respectfully suggest, therefore, that if you are at all interested you get in touch with us immediately by using the inquiry coupon in this advertisement. It is here for your convenience. Or, if you prefer, call or address our office nearest to where you live. Our representatives at our distributing stations will be glad to supply you with literature and complete information.

“WORLD IS ON VERGE OF GREAT EPOCH”

MEXICO PROTESTS RETURN OF SHIPS

MARINES LANDED

MESSAGE STATES

Railway Men Declare That

“Sovereignty Has Been Violated.”

(By the Associated Press)

WASHINGTON, July 12.—Protest against the return of American warships to Tampico harbor was telegraphed today by the Railroad Society of Mexico to President Compe of the American Federation of Labor.

“We Mexican railroad men belonging to the confederation of societies in service on Mexican railways,” the message said, “wish to protest with all our energy to your brotherhood workers of the United States against the attitude shown by the government of the United States by sending men of war to the port of Tampico, committing thereby a violation of the sovereignty of the Mexican republic.”

The message asserted that the ships had “disembarked American marines in Tampico without waiting for the acquiescence of the port officials.”

It has not been reported that marines from the cruiser Cleveland or the gunboat Sacramento have been landed under arms. Mexico City dispatches recently told of liberty parties of marines and sailors having been ashore.

Fool the Heat and

Sleep on Roof New

Motto in Muskogee

(By the Associated Press)

MUSKOGEE, July 12.—(Special)—Roof garden sleeping porches promise to become the rage among Muskogee apartment dwellers if the weather man keeps up the pretense that this is a section of the torrid zone.

The “roll your own bed on the roof” movement has started by two young women who work in the county courthouse, who found several nights ago that the important function known as beauty sleep had no chance at all in the one-room apartment.

Reflecting that there was no clause in their lease specifying that they had to sleep in their own room and that the city ordinance forbidding after-hours loafing in the parks made no reference to the roof of an apartment house, they acted at once.

Literally picking up their beds, they migrated to the roof where they slept in undisturbed comfort until the sun, at an early hour, reminded them that the roof garden sleeping is, at best, a short lived ecstasy in the morning.

Several apartment house dwellers are contemplating now turning their respective apartment buildings into communistic sleeping porches and so defy the weather man’s dictum that this is the hottest summer Muskogee has ever known.

Ruff Necks Baseball

Club Meets Roff in

Mix This Afternoon

Ada Ruff Necks, an amateur baseball club of this city, left this afternoon for Roff where they plan to mix it with the Roff ball club this afternoon. John Cover is in charge of the new club at this time.

Those who will compose the team this afternoon are Rutledge Williams, Lefty Warner, R. Warner, MacMillan, Roach, Frisco Vernon, Fain, and O. Vero. It is believed that with this lineup the Roff club will be handed a shutout.

MESSANGER HELD UP

AND ROBBED OF \$1735

(By the Associated Press)

CHICAGO, July 12.—Two armed men stepped out of an alley at noon today, snatched a \$1735 pay roll from 16 year old Carl Czerniak, a messenger for a commission house, and escaped. A girl was struck in the face with a revolver by one of the men but ran to her home and reported the robbery.

CHICAGO LAWYER AND

INVENTOR PASSES AWAY

CHICAGO, July 12.—J. W. Beach 77 years old, inventor of the pneumatic tube and well known Chicago attorney, died here last night. Some years ago he lost \$20,000,000 damage suit against the government for alleged breach of contract growing out of a plan to install experimental pneumatic tube mail service.

Boll Weevil Has Many Families

In Season, Hill Says in Recent

Report on Big Menace to Cotton

Statistics showing how the boll weevil problem in Oklahoma is made more complex by the fact that eggs hatch in two to three days, that only two to three weeks are required for the complete development of the weevil, and that there are about three or four generations of the insect in one summer, were submitted today by J. B. Hill, county farm agent.

After considerable research on the question, Mr. Hill has compiled a complete history of the life of the boll weevil.

“The life history of the weevil is briefly as follows: It passes the winter in the adult stage under cover of plant growth. It appears generally when the plumes of the cotton plants begin to develop, feeding on them and later on developing squares in which the female deposits her eggs. Each female deposits about 140 eggs, only one being placed to the square, ordinarily in food punctures which also cause the squares to flare and drop to the ground. The eggs hatch in two or three days. The larva feeding on the inside of the squares develops in the pupal stage in about a week to twelve days. After pupation, which consists of about three to five days, the insect emerges from the square as an adult. The entire life history is complete in two weeks. There are about three or four generations a summer in this state where the weevil is present.

Considerable information, including the method of control of the boll weevil by use of calcium arsenate, has been furnished Mr. Hill by the state entomologist at the Oklahoma Agricultural and Mechanical College, Stillwater.

Not always is it profitable to poison for boll weevils, according to information furnished by county agent. Some “ifs” for poisoning have been outlined by Mr. Hill as follows:

“It will pay to poison—‘If the weevils are really injuring your crop seriously, and if your land is sufficiently fertile to yield at least one-half bale per acre with weevil injury eliminated, and if your farming organization is such that you feel assured that the poisoning applications will be made at the right time and in the right manner, and if you are willing to spend the full amount necessary to provide an adequate supply of dusting machinery and poison’.

The general gains from weevil poisoning under average, fairly favorable conditions seem to be from 200 to 400 pounds of seed cotton per acre, but owing to the variations in degree of weevil injury it is not safe to expect much more than the lower figure, he said. Hand guns, one-mule machines, and cart machines may be used. The formula for poison can be furnished farmers by the county agent.

Weevils Die in Heat

Brushes tied to the arch of cultivators to shake the cotton and knock off the squares punctured by the boll weevil is the prevailing attack being used by the farmers of the county, acting on Mr. Hill’s advice. This is always an effective method and has been used for some time in all regions infested with the insect, according to the county agent. The weevil is characterized as a “sulky” insect which cannot live when once brushed down into the hot dust.

Discussing a “molasses treatment” which has been discovered by a Georgia negro recently and given wide publicity as the “only known effective means of fighting boll weevil” Mr. Hill declared he did not prefer to place any reliance on any plan which has not been tried out and recommended by the United States Department of Agriculture. “If there is anything to the plan,” the Department will let us know,” he said.

AMERICA AWAITS

EUROPEAN REPLY

Official Acceptance of Dis-

armament Proposal

Expected Daily.

(By the Associated Press)

WASHINGTON, July 12.—Formal acceptance of President Harding’s suggestion for an international conference here on disarmament and far eastern problems are still awaited at the state department today before plans for the session take definite shape. Informal communications from London and Paris convinced officials however that no opposition was offered there and press dispatches from Tokyo, though showing caution on the part of Japanese, foreign officials, were not construed as indicative of any intention to reject the invitation.

It is assumed that official acceptance will be received within a few days. Thereafter a day will be decided on and plans as to the program of discussion be made out.

Until the preliminary meeting is held there will be no announcement of attendance but further indications of the purpose of the United States to bring far eastern questions to consideration has met approval.

Elimination of all problems characterized as harbors of irritation is regarded as essential to any discussion of disarmament. This feeling was included in the invitation.

OKLAHOMA MAN

MADE OFFICER

IN ELK ORDER

(By the Associated Press)

LOS ANGELES, July 12.—Selection of grand lodge officers and the convention city for the 1922 session was the work before the 57 annual convention of the Grand Lodge of the Benevolent and Protective Order of Elks here today.

William W. Mountain of Toledo, Ohio became Grand Exalted Ruler, succeeding Wm Abbott of San Francisco. Others who are to guide the destinies of the order through the coming year include Rex Walker, of Tulsa, Oklahoma, Grand Esteemed Lecturer Knight.

Better be safe than sorry. Advertisers in the News Want Ad columns. Quite an idea, eh?

SHERIFF’S AUTO

TAKEN IN NIGHT

Car Thieves Make Daring

Robbery and Escape

With New Car.

What officers declare to be one of the boldest strokes in criminal records of the county occurred last night when robbers broke into the garage of Sheriff Bob Duncan, 500 E. Thirteenth street, and stole his new Ford touring car. He bought the car July 1.

This is the second automobile robbery here within a week. Last Thursday night, thieves entered the garage of Postmaster J. W. Westbrook, 124 E. Fourteenth street, and took a Buick touring car, well marked. No trace has been found of either car in spite of rewards offered.

Sheriff Duncan said this morning he had no clue as to the direction the thief or thieves took with his car. Officers again sent out calls to towns in all directions from Ada in the hope of heading off the robber in his dash for escape. No trace was left as to the number of men and no clue to their identity remained, the sheriff said. A reward of \$50 for the car and \$100 for the thief has been offered.

The car had a dent in the radiator frame on the right side near the top, the left fender was slightly sprung, and the car had de-mountable rims. Officers were working all possible sources of information this morning in an attempt to get trace of the band of automobile crooks believed to be operating in the county.

Meadows Is Named

Prohibition Head

for All of Oklahoma

(By the Associated Press)

WASHINGTON, July 12.—Appointment of William F. Meadows of Oklahoma City as federal director for the state of Oklahoma was announced today by the internal revenue bureau.

He will succeed John W. Reese with his headquarters at Stillwater Oklahoma.

OKLAHOMA WEATHER

Tonight and Wednesday partly cloudy.

ENGLISH UNEASY

AT IRISH RIOTS

Rejoicing in Britain Is

Curbed By News of

Belfast War.

(By the Associated Press)

LONDON, July 12.—Satisfaction felt by the people of England over the arrangement of the meeting on Thursday between Eamonn De Valera, Irish republican leader, and Premier Lloyd George, was tempered by apprehensions today over the situation in Belfast. The rioting which began in that city on Sunday continued yesterday with diminished severity and while there were instances of violence yesterday in various parts of Ireland the center of apprehension is Belfast.

Irish Off to London

(By the Associated Press)

DUBLIN, July 12.—Irish republican leaders chosen to participate in the conference to be held with the British government authorities in London Thursday left this morning for London. They are Eamonn De Valera, leader of the Irish republicans; Arthur Griffith, founder of the Sinn Fein, and Austen Stack and Robert C. Barton, the last two being Sinn Fein members of the British Parliament.

CONTRACT IS LET FOR

TUBERCULAR HOSPITAL

(By the Associated Press)

OKLAHOMA CITY, July 12.—Contracts for detailed plans and specifications for the remodeling of the University hospital, the construction of an administration building and the building of a tubercular sanatorium for former service men at Sulphur were signed by the Oklahoma Soldiers’ relief commission Monday with Neider and Joyce, the firm of architects previously chosen.

The commission met at the capitol to take final action on these plans and members predicted that they will be finally accepted and bids advertised for by August 1.

Joe P. Randolph of Oklahoma City was elected chief clerk of the commission. He will open offices immediately at the state house for the commission, which will administer during the coming year, more than \$1,000,000 for aid of former service men.

In addition to his capacity as a trained office man, the chief clerk holds a degree in engineering from the University of Arkansas. He came to Oklahoma City seven years before he enlisted in the army.

THREE FINED BY

MAYOR TODAY IN

CITY HEARINGS

Three cases were reported in police court today. Harrison Clark and Ethel Frazier were arrested for consorting. Each was fined \$14.75. On default of payment of the fines, both were committed to jail.

I. H. Clark was arrested for being drunk, found guilty and fined \$8.75, which he deposited in the city treasury. The mayor reports a smaller business during the months of May and June than he has had for many months past.

RED CROSS RELIEF IS

TURNED TO CIVILIANS

Relief work among former service men is coming to be of less importance than during the last few years in Red Cross work, according to Mrs. Orville Snead, who is in charge of the work for the local chapter. It is resuming its class is responding to the help offered by the Red Cross in steadily increasing numbers.

Mrs. Snead says that while many applications from former service men are still coming in, she has more and more to do in helping those who cannot fully support themselves, finding employment, which is coming to be one of the greatest problems she has to face, and various other ways in which the Red Cross can aid.

The man who invented a want-ad was on to his job. It is the quick road to results. Try one.

Want to buy a home? Turn to the want ads.

BATTERY RANKS

ARE NEAR FULL

Mustering Officer May Be

Called to Ada Today

to Start Unit.

Sixty-two men were signed up and had passed physical examinations for Battery “F”, Oklahoma National Guards, now being organized here, a late report this afternoon said. This is eleven men more than the minimum required for forming a battery in Ada.

With indications pointing this morning to a certainty of getting the required number of men today for the establishment of Battery “F” of the Oklahoma National Guard here, preparations were being made to telegraph the adjutant general at Oklahoma City to send a mustering officer to Ada to organize the unit.

Although several attempts have been made to organize a branch of the Oklahoma National Guard here, this is the first time that the formation of a unit has been assured, men interested in the unit said this morning. Early today, 48 men had been examined and passed for guard service and only 51 are needed. Others were scheduled to take the examinations later and the number will easily run over the quota.

Herbert Felix, assisting in forming the guard battery, said:

“Only technicians this morning in the way of finishing preliminary organization was the examination of a few candidates by a local doctor. This will be rushed through as rapidly as possible.

Need Two Cooks

The battery now needs two cooks for encampment duty and a horse-shoer for steady service. There is a permanent job open for a horse-shoer and a salary of \$70 to \$90 a month together with clothing and a place to sleep will be given. Officers said.

All non-commissioned officers of the battery will be selected from the men who enlist for duty. Commissioned officers will be taken from local men who held commissions during the war. Robert Kerr, who is leading in recruiting the battery, is listed for the captaincy and Herbert Felix for a first lieutenant. Kerr was a first lieutenant during the war and Felix was a second lieutenant in the ninth regular army motorized field artillery. The battery will have either two first lieutenants and a second or two second lieutenants and a first. It is believed.

Equipment will be forwarded for use of the local battery as quick as men are mustered in and a camp will be arranged soon.

SCOUTS WILL GET

BADGES AT LODGE

Ada Boy Troops Ready for

Opening Lodge at 5

This Afternoon.

Late today members of the Ada Boy Scouts will become proud possessors of badges representing the first steps of scouting to the highest place obtainable, the Eagle Scout. Four boys have attained this position and several more are preparing to pass the remaining tests in the near future. The program prepared for this evening at the City lake is expected to be interesting and all. Parents, friends and relatives are invited to come out to the lodge opening.

Boys have been busy at the lodge today putting things in readiness for the occasion. The awarding of badges promises to be the most interesting feature of the evening. More than 175 merit badges alone will be awarded, some of the boys having earned as many as 25 badges. Prominent men of the city will be present to deliver addresses at this time. Music by the band will also be enjoyed.

Spigler Jury Drawn

(By the Associated Press)

SPIGLER, Okla., July 12.—When a recess was taken at noon today eleven men had been tentatively accepted by the state for jury service in the trial of Charles W. Harrell, 63, married, charged with the murder of Mrs. Tina Davis, widow in this city in 1913.

BRITISH GOVERNMENT PLEDGES TO

PUSH CONFERENCE TO ITS LIMIT

House of Commons Breaks Into Cheers When Lloyd-

George Swears Allegiance of England in Carrying

Out Program of World Disarmament; Canada Is

Hopeful.

(By the Associated Press)

LONDON, (Canadian Press), July 12.—The world is on the eve of one of the most epochal events in history.

This is the verdict of the newspapers and the statement follows the announcement of President Harding’s offer and the British government’s acceptance, in connection with the holding of a conference for the discussion of the limitation of armament and the Pacific problems. The scene in the house of commons yesterday afternoon when Premier Lloyd-George announced Great Britain’s acquiescence in the proposal was a memorable one. The premier spoke to a hushed and crowded chamber and when he declared that the government welcomed such a move and would do its utmost to make a success of it, there was a crash of applause from all quarters, which in the opinion of old journalists in the press gallery has never been equaled since the announcement of the armistice with Germany.

Mr. Lloyd George spoke with earnestness on the worthiness of the momentous offer and placed great emphasis on the declaration that if the conference failed it would not be because the British Empire withheld its support.

Downing street and the foreign office pulsated with activities throughout Monday, numerous conferences being held. In the afternoon after the British prime minister made his statement to the house of commons, the conference of premiers went into session.

The British press was unanimous in stating that President Harding’s offer was made possible only by the conference of premiers which laid the foundation for what has been done.

The London Times carries the following statement from Arthur Meighan, the Canadian premier, who will represent Canada at the Washington conference.

“Offers New Hope”

“It was with great satisfaction that I learned of President Harding’s notable announcement. To a distracted world it offers a new hope and a promise of relief from the uncertainty and apprehensions that have clouded the future. They will be welcomed here more eagerly than in Canada for it has been this unwavering belief of Canada that the issues involved in the discussion of armament, as well as the closely connected problems of the Pacific and the far east, can best be settled by full and frank consultation among the nations concerned, that is, by the method of free conference. Their belief is based on experience with this method in the new world and will unquestionably seek the means to insure the success of the momentous proposal made by the president of the United States in the name of his country.”

While the conference is not likely to take place before two months the Dominion premiers will probably cut short their deliberations here and return home to prepare for it. Discussion of these problems is not out of the question and it is not likely that anything of importance will be done in regard to constitutional change.

Italy Is Favorable

(By the Associated Press)

ROME, July 12.—The proposal of President Harding for a conference on restriction of armament was favorably received in Italian circles and especially by Premier Bonomi and Foreign Minister Della Torretta. It was indicated today. This leads to a belief that Italy will undoubtedly accept an invitation to such a conference.

GERMANY SAYS HARDING WILL BE GREAT GENERAL

(By the Associated Press)

BERLIN, July 12.—The Volks-Zeitung declares President Harding’s invitation to a disarmament conference as a “political event of foremost importance,” and says: “If the American president succeeds in carrying it to a successful conclusion the hope of the world will be realized and President Harding will have set up for himself a monument more enduring than the fame of all the generals in history.”

The Tagblatt believes that the

NATIONS CONFER

ARMISTICE DAY?

Session on Disarmament

May Lead to “Association,” Belief.

(By the Associated Press)

WASHINGTON, July 12.—Favorable responses are understood to have been received from all but one of the powers to which the United States has suggested a conference on reduction of armament and related interests.

Although so far nothing has been said in the negotiations as to the details, administration officials have been so encouraged by the attitude of other nations that they have already given some attention to such questions as what date it shall begin. One suggestion prominently under consideration is that November 11, Armistice day, be selected.

The exact subject to be taken up at the conference is understood not to have received any detailed consideration, but officials said that they feel no reason why the conversation should not logically lead to the plan for the association of nations advocated by President Harding.

BLACK ROT REPORT MAKES WHEAT JUMP

(By the Associated Press)

CHICAGO, July 12.—Anxiety in regard to reports of black rot and hot weather damage in the spring crop had the effect of making wheat prices jump today. The rise amounted to almost seven cents in some cases. September delivery touching \$1.24 3-4 as against \$1.18 at yesterday’s finish.

Gasoline Prices Down

Gasoline now is 21 cents a gallon here. This price represents a two-cent drop since Saturday. One cent of every 21 cents received for gasoline here goes to the Good Roads club. According to one local dealer the price should come down more, but this is uncertain. Prices in Texas and in other parts of Oklahoma are much below those here, it is said.

ROAD SHOWS FAREWELL

It is said that road shows cannot travel now as they used to do, owing to the increased cost of transportation. That such is true is regrettable, for it means a distinct loss to art. The millions of theater goers throughout the country want to have an opportunity of hearing again such men as Sothern Sir Johnston Forbes Robertson and others in the class in Shakespeare productions, as well as those popular in recently composed dramas.

Of course, there is one saving feature, and that is the screen. The movies are making just as great artists as were ever seen on the so-called legitimate stage. These can go to the small city as easily as they can go to the great markets of trade.

One other thing that brightens the outlook is the opportunity for local player organizations throughout the country. The Passion Play is put on not by professional actors and actresses, but by the village men and women. Every city of any size in the land could organize a band or a base ball team. That company could reproduce the best of modern plays, the best of Shakespearean plays or any other stage production worth while.

We regret the passing of the big show on the road, but there may be no great loss, if we but take advantages of the opportunity.

SIGNS POINT TO PEACE

The world is thinking peace and peace must come. Hardly had the news of the probable successful termination of the Irish bloodshed been thrown on the screen of the world, when President Harding asks for a conference of the nations to reduce armament.

That the other nations invited to attend this conference will comply goes without saying. Only three nations now can be considered as building great navies or armies. There is not now and is not likely to be any trouble between the two great English speaking nations. That leaves only Japan to be taken care of. If Japan can be shown the advisability of stopping her preparedness for war, what is the use of spending money and wasting property in building dreadnaughts that may be out of date six months after they float?

We believe there will be future wars, and that this country must be prepared, particularly in the air and on the seas. So long, however, as no other nation gets ahead of us, we have nothing about which to worry.

President Harding has taken a step forward. If he can accomplish something to save the American people billions of dollars by making it useless to build fighting machines, he will be forgiven for the time spent thus far in doing little to save the situation in other lines.

WHY LISTEN TO GLOOM MAKERS?

This is the hundred and forty-sixth year of the American republic. It started with 3,000,000 inhabitants. It numbers 110,000,000 today. There is a national wealth of \$260,000,000,000; a national debt of \$13,000,000,000; the second greatest merchant marine afloat; matchless resources and hundreds of millions of acres of productive land awaiting the plow and the hoe; inventive genius that is the envy of the world; gigantic industrial plants that are the wonders of the world; vast surpluses of all the raw materials and food products; millions of opportunities everywhere under the flag. Now, why listen to gloom makers?—Ft. Worth Record.

So far as we are able to determine from reports purported to come from the State House, all of the elective officers now in that wigwam will be candidates for governor and possibly a dozen or more. This political life must be "keen." You don't get in office before you begin planning how to get in another.

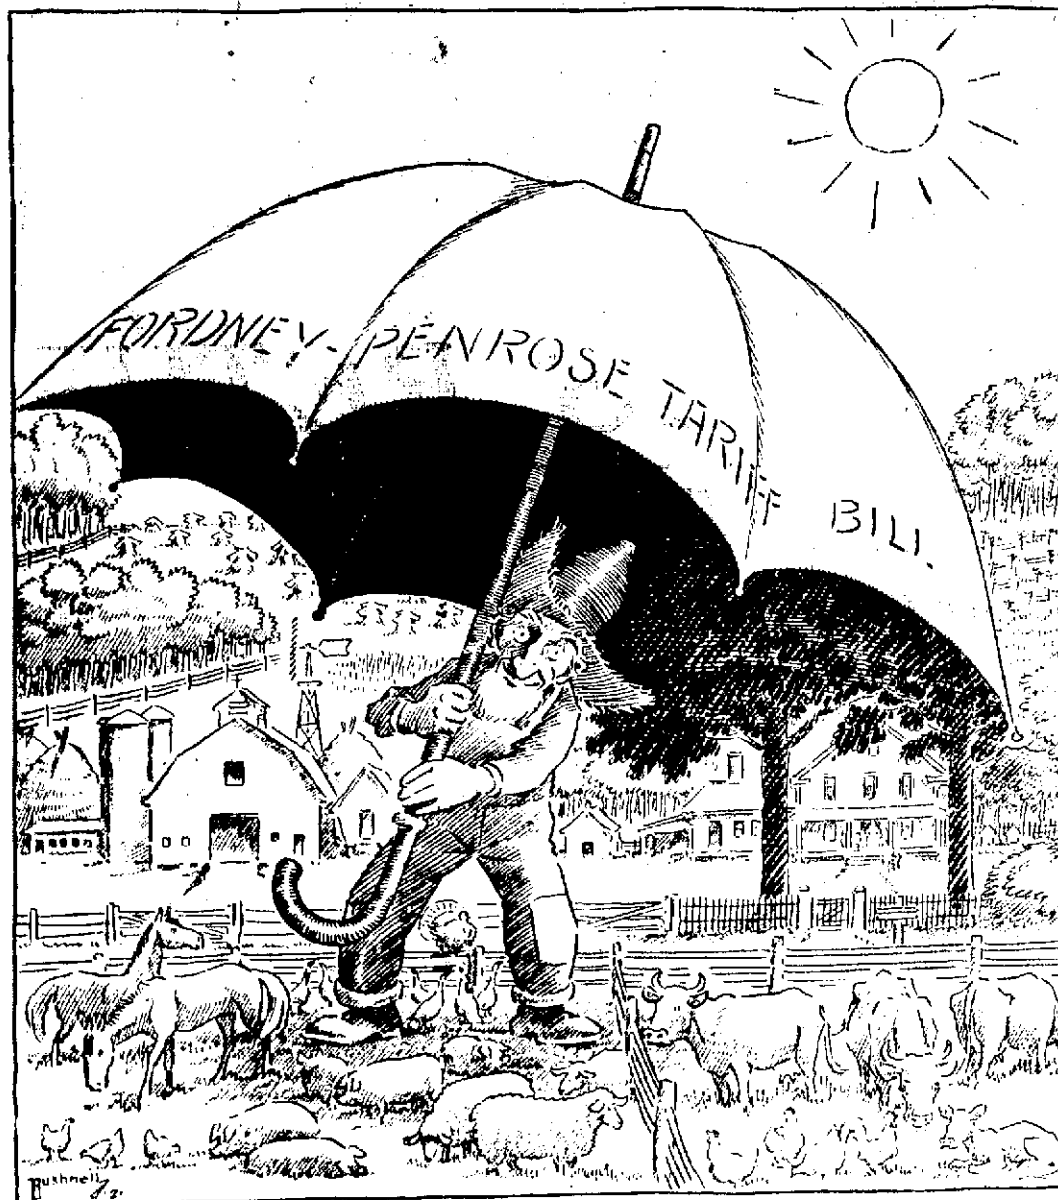

That Alabama negro may have put out molasses to catch boll weevils, but that is not the kind of negro we used to know. The negroes we used to know in the old South could never find enough lasses for themselves, much less enough to give a portion to the boll weevils.

About the cheapest thing you can think about is a hog. About the most expensive thing you can think about is a pound of bacon. With hogs at five cents and bacon at sixty-five cents, we don't call that a margin. That's the whole thing and the grower of the hog operates on the margin that ain't.

Ada is to be a weedless town, according to an announcement of Mayor Kitchens. Now let's go a step further and clean up all the alleys and back lots of any refuse that may be there.

"It's not raining rain to me; it's raining roses down," a lovesick swain was heard to remark Monday as the refreshing liquid spattered on the pavements.

IF THE BILL GOES THROUGH AS SCHEDULED THE FARMER AND ABOUT ALL HE RAISES WILL BE WELL PROTECTED

Ordinance No. 464.

An Ordinance Creating and Establishing Sanitary Sewer District No. 15 in the City of Ada, Oklahoma, Defining its Boundaries, Describing Material to be Used, Providing for its Construction and Declaring an Emergency.

Be It Ordained by the Board of Commissioners of the City of Ada, Oklahoma, in Regular Session Assembled:

Section 1.—That there shall be and hereby is created and established Sanitary Sewer District No. 15 in the City of Ada, Oklahoma, embracing all the lots, pieces and parcels of ground situated within the corporate limits of the City of Ada, Oklahoma, and bounded by the outside lines of the following described property, to-wit:

Barriering Heights.
Lots 4 to 11 inclusive, Block 5
All of Blocks 6 and 7
Lots 4 to 11 inclusive, Block 8
All of the above lots, blocks and tracts of land being within the corporate limits of the City of Ada, Oklahoma.

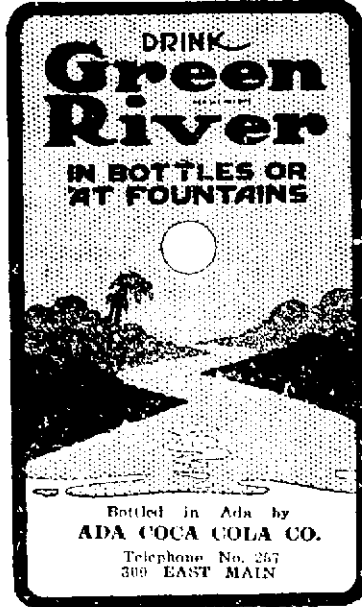

Section 2. That the sewer lines be constructed in said district in and across the necessary streets, avenues and alleys and lots making connection with the public sewers.

Section 3. That the sewer lines so described shall each and every one be completed with all the necessary laterals, inlets, "Y" branches, manholes, lampholes, etc., all materials to be furnished and all work to be done in strict accordance with the plans, profiles and specifications to be prepared by Benham & Mullerger, Consulting Engineers for the City of Ada, Pontotoc County, Oklahoma, which plans, profiles and specifications with the estimates of costs shall be approved and ordered filed in the office of the City Clerk, and all material furnished and work done are to be subject to the inspection of the Engineer for the City.

Section 4. The City Clerk is hereby authorized and directed to advertise for sealed bids for the construction of said District Sewer for at least two (2) weeks in the Ada Weekly News, a weekly newspaper and five (5) times in the Ada Evening News, a daily newspaper, both published and of general circulation in the City of Ada, Oklahoma. Such notice shall provide a certain time and place where the Board of Commissioners shall meet for the purpose of opening the bids and awarding the contract to the lowest and best bidder, which contract in no case shall exceed the estimate of cost submitted by Benham & Mullerger. Said notice shall also provide for a certified check to accompany each bid as a guarantee of good faith on the part of the bidder, and for such bond or bonds as may be required by the laws of the State of Oklahoma, and such additional guarantee, construction and maintenance bonds as it is the custom of the City of Ada, to require of all contractors for public work. Said notice shall also set forth the right of the City of Ada to reject any or all bids, and to re-advertise for other bids if those filed are not satisfactory. Said notice shall also advise all parties interested that, at the time and place mentioned, they may appear and protest against any such improvements or any part thereof.

Section 5. For the improvement of the sanitary system of the City of Ada, and for the immediate preservation of the public peace, health and safety of said City of Ada and its inhabitants an emergency is hereby declared to exist by reason whereof this ordinance shall take effect and be in full force and effect from and after its passage and approval as provided by the Charter of the City of Ada, Pontotoc County, Oklahoma.
Passed by the Board of Commis-

sioners and approved by the Mayor and Commissioner of Public Justice & Safety, this 21st day of June, 1921. GARY KITCHENS, Mayor and Commissioner of Public Justice and Safety.
(Seal)
Attest: W. B. Jones, City Clerk and Commissioner of Accounting and Finance. 7-12-11d

Newly elected officers of the Ancient and Beneficent Order of the Red, Red Rose, schoolmen's organization, were announced this morning by Ada Conclave No. 11. They are: Grand High Moors, R. S. Newcomb; Grand High Scribe, H. F. Foley; Grand High Sire, Hugh Norris; Grand High Keeper of the Outer Wicket, A. Stauffer; Grand High Keeper of the Inner Wicket, A. B. Herring; Grand High Conductor, F. L. Casteel; Grand High Lecturer on Secret Work, L. T. Walters; Grand High Lecturer on the Rose, J. W. Dave Whipple; Grand High Obligator, E. H. Nelson; Grand High Director of the Routes, M. Z. Thompson; Grand High Anchorer, C. Raymond Cox; Grand High Producers, J. W. Zimmerman and T. K. Treadwell.

ITALIAN INVENTOR HAS REMARKABLE NEW SHIP

ROME, June 22.—An airplane capable of landing without the need of a large aviation field, able to rise without a long run beforehand, able to travel more than 300 miles an hour, is announced as the invention of an Italian engineer, Epanimacoda Bertucci, of Rome. The inventor claims that he already tried out the machine on a

small scale and regards his first experiments as indicative of the success of the invention. The new machine is primarily intended for aerial war chasing and is to be armed with a machine gun. It is a monoplane.

Phone 4 is the place to get service in job work or advertising. Don't overlook your opportunities.

SUPPLEMENTAL ESTIMATE

Application of City of Ada, Pontotoc County, Oklahoma, for Additional or Supplemental Appropriations for Fiscal Year, Ending June 30, 1921

STATE OF OKLAHOMA, COUNTY OF PONTOTOC, ss.
TO THE COUNTY EXCISE BOARD OF PONTOTOC COUNTY, OKLAHOMA, GENTLEMEN:

In pursuance of the provisions of Section Eight (8), of Chapter 226, Laws of 1917, application is hereby made for supplemental and additional appropriations with which to meet the legal and ordinary expenses of the City of Ada, Pontotoc County, Oklahoma, for the remainder of the fiscal year ending June 30, 1921, and for an order cancelling certain appropriations or parts thereof heretofore made for said year.

In support thereof, We do hereby certify:
FIRST: That certain of the appropriations heretofore made are inadequate to properly maintain the several departments of the City of Ada, Oklahoma, for the current fiscal year; and that the public welfare and needs of said city are such as to require for the remainder of said year, for the legal and ordinary expenses, the additional appropriations as listed and set forth by purposes and amounts in Exhibit "A", attached and made a part hereof.

SECOND: That the financial statement hereto attached and marked Exhibit "B" shows as of the close of the month next preceding the filing hereof the true and correct fiscal condition of the General Fund of said municipality; and that the surplus revenue of \$13,742.14 as shown in said exhibit is available for and out of which to make the additional appropriations herein requested.

THIRD: That the appropriations as listed in Exhibit "C" hereof, aggregating none, are for purposes less urgent and imperative than the additional needs herein presented.

WHEREFORE, Request is hereby made that an order be entered cancelling the said appropriations; and that the revenues so released, together with the above stated surplus, making the total available revenue of \$4,356.00 be applied and appropriated to the several additional and supplemental purposes as set forth in said Exhibit "A" hereof.

WE FURTHER CERTIFY, That the aggregate amount of said proposed additional and supplemental appropriations is not in excess of the income and revenue provided and accumulated for the current year.

IN WITNESS WHEREOF, We have hereunto set our hands and affixed the seal of said City of Ada, Pontotoc County, Oklahoma, at the City of Ada, Oklahoma, this 11th day of July, A. D., 1921.

GARY KITCHENS,
W. B. JONES,
W. S. SMITH, Commissioners.
Attest: W. B. Jones, City Clerk.

IN SOCIETY

Guild Swimming Party
One of the most unusual outings the Lena Boyd girls have enjoyed this summer was a swimming party and breakfast at the Glenwood park Saturday morning, July 10.

The girls met at the home of Miss Russell, 220 W. Fourteenth street at six o'clock and went at once to the pool. It was a pleasant surprise to find at the beginning that the guild had among its members some swimmers who were expert teachers. After swimming, the girls built a fire and cooked their breakfast. They enjoyed a feast of fried chicken, bacon, eggs, fresh peaches, oranges, bananas, and hot coffee.

Those present were Misses Thelma Roberts, Eddie Mae Horn, Wilma Chilcutt, Roberta Allen, Lottie Faust, Pauline Knotts, Catherine Taylor, Grace Mooney, Geraldine Hale, Jeanette Bobbitt, Oleta Montgomery, Clara Rayburn, Bernice Rayburn, Mollie Russell, Dollie Gay, Lucille Chapman, Pansie Sparks, Mary Bobbitt, and Mesdames Bobbitt and Hamilton.

Mr. and Mrs. Fred G. Gay, who have been making their home in Chickasha for a year and a half, are moving back to Ada. Mr. Gay will retain his electric supply house and contracting business in Chickasha and also maintain the one here. They have not decided where they will live.

Mrs. G. M. Little, mother of W. D. and Sam Little of 119 West Nineteenth street, and her daughter, Miss Ruby, arrived today for an extended visit. Mrs. Little's home is in Marshville, North Carolina. Miss Ruby holds a position with the Secretary of State in Raleigh, North Carolina.

Swimming Party.
Phi Beta members and friends enjoyed themselves to the utmost last Saturday morning when all went to the swimming pool for a plunge. A delightful hour was spent in this popular sport after which breakfast was had.

Each member of the Sorority invited a friend and the party was well formed. All who were fortunate enough to go with the girls declared themselves to be more than pleased.

Bart Smith and family left overland today for New Mexico where they will spend two weeks visiting relatives and friends at different points.

"SWAMP CHILL TONIC DOES THE WORK"

Arkansas Merchant Highly Praises Famous Old Remedy

J. W. Mustain, Dealer in General Merchandise, Old Grand Glaze, Ark., sells a lot of Swamp Chill and Fever Tonic. The reason he sells a lot is expressed in a letter he recently wrote us, which says: "Swamp Chill Tonic sure does the work. I certainly want to thank you for your fair dealings."

John O. Rogers, Center, Tex., says: "I have sold your Swamp Chill Tonic for years and it is my favorite tonic. I always recommend it because of its fine laxative properties."

Dealer C. E. Miller, Bernice, La., says: "I handle all the standard chill tonics on the market, but sell ten bottles of Swamp Chill Tonic to one of any other kind. After a customer has used it once he or she will use no other kind."

Thousands of other dealers in many different towns and cities strongly recommend Swamp Chill Tonic to their customers as the very best malaria remedy on the market. 60 cents a bottle—get one today.

HARDING SPEAKS ON BONUS TODAY

President's Message Is Less Than 3000 Words Long.

(By the Associated Press.)
WASHINGTON, July 12.—President Harding has completed early today, the preparation of his special message expected to be read to the senate this afternoon dealing with soldier bonus legislation. The document was said at the white house to be less than three thousand words in length and it was sent to the public printer this morning with the expectation that it would be ready for delivery about two o'clock standard time this afternoon, although a definite hour for Mr. Harding's appearance before the senate remains unsettled.

BONUS WOULD STAGGER FINANCES OF COUNTRY

(By the Associated Press.)
WASHINGTON, July 12.—Enactment at the present moment of adjustment compensation legislation for the veterans of the world war would "greatly imperil the financial facilities of the country," President Harding told the senate today in the second address he has made to that body during his administration. "We owe every obligation to the disabled and dependent," the president said, and the executive branch owed it to the country "frankly to state the difficulties we are called on to meet and the added peril this measure would bring."

"This would mean an effort to expend billions where we have to discharge first our duty to those we must not fail to aid. Our land has its share of the financial chaos and industrial depression of the world. "We little heeded the growth of indebtedness or the limit of expenses during the war because we could not stop to count the cost. Our one thought then was the winning of the war and the survival of the nation," he said.

"After four months of consideration of conditions 'which would stagger all of us, were it not for our abiding faith in America,' the president said, he was fully persuaded that three things were essential to restoration.

"These are," he continued, "the revision, including the reduction of our internal taxation, the refunding of our war debt and the adjustment of our foreign loans. It is vitally necessary to settle these problems before adding to our treasury any such burden as is contemplated in the pending 'soldier bonus' bill."

Mr. Harding said it was "unthinkable" to expect business to revive while maintaining the "excessive taxation of war" and "quite as unthinkable to reduce tax burdens while committing the treasury to additional obligations ranging from three to five billion dollars."

Early Showing of Fall Millinery and Suits

A Characteristic Silhouette

In one of the characteristic silhouettes for the coming season the waist is large and bulky and is placed at a low line, while the hips are slim and tightly draped. The skirt flares gradually from snugly fitted hips to the lower edge. The inspiration for this silhouette is largely drawn from Persia and Hindustan. Suits for the winter are featured with jackets in various styles, knee-length or longer. Sleeves of suit are set in at a deep armhole. Jackets in severely plain tailored styles are also featured. We have just received some of these striking new suits for the Fall season, colors, in Navy, Brown, and even Black stronger than heretofore. Tricoline and Triclonia are featured greatly for the early season, at very moderate prices.

\$24.50 up

NEW FALL CHAPEAUX

Two-color combinations are good in demand—small trimmed hats with ribbon bands in colors of Orange, Blue and Tangerine are predominating in materials of Duveline and Velvet. Pressed Beaver Sailors with roll brims, in colors of Black, Navy, and Brown will be very much in vogue for the on-coming season. Felt and Felt Sailors in colors of Jade, Tangerine, Black, Blue, and other new Fall shades, with roll brims are also greatly favored. With our new assortments and new ones arriving daily, we invite you to inspect our new showing, which we have so moderately priced.

HEAVY LOSSES SEEN FOR SAN JUAN SUGAR
(By the Associated Press)
SAN JUAN, P. R., July 12.—Efforts of sugar producers and others to get together in some concerted effort to relieve the present depressed sugar situation so far have failed.
R. Aboy Benitez, president of the Sugar Producers Association, has been in favor of the formation of a selling committee, the holding of sugars until better prices prevail, and an ending of the practice of shipping sugar to New York unsold to be kicked about the market and finally purchased at any prices the refiners offer. Mr. Aboy Benitez, is of the opinion that unsold sugars in New York have helped bring about the unbroken drop in all sugar prices during the past few weeks.
While there are some other producers and others interested in the sugar business who agree with Mr. Aboy Benitez, there are apparently a large number of interested parties who are convinced that Porto Rico sugars are too small a factor in the situation to affect the market one way or the other. They say there are 1,250,000 tons of sugar in Cuba ready for shipment. With the gradual winding up of the grinding season in the island it has become apparent that there are more than 200,000 tons of sugar here available for shipment at a time when prices are lower than any time during a five-year period and meaning a loss on every pound of sugar sold.
It is generally estimated that an average cost of \$6 per hundred pounds for producing this year's sugar crop is conservative and that any price under that will mean a loss to most of the producers in the island. The crop is the most expensive ever harvested in the island, and the low prices which have prevailed have been particularly hard on the actual cane growers.
J. Ruiz Soter, Secretary of the Sugar Producers Association, who has recently been in the states and who sailed again on Wednesday, said that he did not know what the future market was going to be, but that he was opposed to any plan for holding sugars with the hope of a better market later on. Conditions were too uncertain for the adoption of such a course, in his opinion.

MEXICO LAYS CLAIM TO PACIFIC ISLANDS
(By the Associated Press)
SAN ANTONIO, July 12.—Contentions upon which Mexico may base her claims to a number of islands just off the coast of California in the Pacific ocean, which are now occupied by Americans and are under control of the United States, summed up in a report made to President Obregon by General Amado Aguirre, sub-secretary of Agriculture and chief of the commission making a study of the islands, according to an account in Excelsior, published in Mexico City. The report declares that the claim of Mexico to the islands is indisputable, but that the Mexican government is willing for the islands to remain under the American flag in return for foreign credit, the amount of which was not stipulated.
Included in the group of islands is Santa Catalina, of which William Wrigley, Jr. of Chicago, is the sole owner. Others are the Farallones, San Miguel, Santa Rosa, Santa Vera Cruz, Anacapa, Santa Barbara, San Nicholas and San Clemente. The arguments of General Aguirre in favor of Mexico's claims to the islands, as published in Excelsior, are:
"The United States is not occupying them by right of discovery, because they were discovered in the 16th century by the Spanish navigator, Cabrillo, who gave them the names which they now bear."
"They are not occupied by right of purchase, as Mexico has never sold them to any person or nation."
"They are not occupied by right of conquest, for they were never conquered."

Prof. Montgomery Here
Prof. T. T. Montgomery, superintendent of the schools of Chickasha and member of the state board of education, was in Ada Monday and part of Tuesday, looking into conditions at the Normal. Prof. Montgomery has shown himself a strong friend of the local institution and has been instrumental in its getting many new features.
Before going to Chickasha, Mr. Montgomery was superintendent of the schools at Madill.
Dr. Warner, D. O., the eyesight specialist, will visit Ada every third week; office with Peoples Drug store, 219 East Main street. Have your eyes examined and proper glasses fitted. No extra charge for residence calls. Phone 662 for appointments and date of next visit. 6-22-1mo.

TWO FOUND GUILTY IN LIQUOR CHARGES HERE
County court opened its session yesterday on the regular July criminal docket, plunging at once into a long string of liquor charges which make up practically all the docket.
The court opened on the case of the state vs. Loja Chance, charged with unlawful possession, the defendant was found guilty and sentenced to 30 days in jail and a fine of \$50.
Walter Winters, charged with transporting liquor, was found guilty by the court and sentenced to pay a fine of \$50 and 30 days in jail.

Mexican and United States Students to Exchange in School
(By the Associated Press)
LOS ANGELES, Calif., July 12.—Exchange of students between universities in Mexico and the United States, a plan fostered by business and educational workers in both countries, is being encouraged and recommended by President Obregon as a means of bringing about a better understanding between the two nations, according to advices received here.
In a communication from the Mexican president to Nelson O. Rhoades of Los Angeles, member of the committee having the plan in charge, it is said 150 offers from American universities to Mexican scholars have been received, that many of the opportunities already have been accepted, and that the young Mexicans have been sent to this country to study.
Recognizing the value of complete reciprocity, however, and the advantage of familiarizing the United States' representatives with Mexico, the Mexican president has asked that twelve professors from American universities visit Mexico to study archeology, Spanish, geology, Mexican history and other subjects. The visitors are to have their fare paid by the Mexican government and to receive the sum of 2,000 pesos annually.
"The Mexican government," the letter adds, "will authorize these privileges in exchange for the scholarship which the United States will give to our students. We will work in complete harmony with the committee that has been formed in furtherance of the exchange plan."

Now is the time to dig that last year's felt out and have it reblocked. We carry a full line of trimmings.

An Attractive Investment With Extra-Profit Opportunity
An 8% Convertible 20-Year Gold Note Offering by Shaffer Oil and Refining Company, Producers and Manufacturers of the famous DEEP-ROCK Oil Products—Discoverers of the Noted Cushing Pool, Oklahoma, in 1912
THIS is your opportunity to invest direct in a strong, independent oil company with a well demonstrated record of success—an organization representing a complete unit of the petroleum industry—production, refining, transportation and marketing.
The investment will give you a definite income of 8% a year, payable 4% every six months, and also the privilege of exchanging your Notes for the Company's Preferred or Common Stock. This conversion privilege provides full opportunity for you to share in the stockholders' profits during the next twenty years. In the event of exceptionally large profits, which we anticipate, the conversion privilege should prove extremely valuable.
This Note issue of \$1,000,000 is being sold for the purpose of developing additional production and extending the Company's manufacturing, transportation and marketing equipment. The Notes are being offered first to our customers and the friends of DEEP-ROCK gasoline, kerosene, oils and other petroleum products. We have many thousands of customers throughout ten leading states.
Notes May Be Purchased on Partial Payments
Our Note offering is being made to a large number of customers and others, and we believe that the present \$1,000,000 will be all taken in a short time. We respectfully suggest, therefore, that if you are at all interested you get in touch with us immediately by using the inquiry coupon in this advertisement. It is here for your convenience. Or, if you prefer, call or address our office nearest to where you live.
Our representatives at our distributing stations will be glad to supply you with literature and complete information.

MANY STUDENTS RELY ON FARMS

Fifty-Nine Vocations Are Represented in Parents of Normalites.

Thirty-nine percent of the students enrolled in the summer Normal are children of farmers, while 59 vocations are represented among parents of other students enrolled. Of the 1103 students enrolled, 379 failed to give the occupation of parents. This makes up the number whose parents are not living.

Some of the vocations represented by parents of students enrolled in the summer Normal are ministers, druggists, farmers, merchants, teachers, physicians, housekeepers, salesmen, bankers, miners, newspapermen, bootblacks, oil workers, contractors, carpenters, a road overseer, county officers, transfer men, railway workers, ginners, cement workers, dressmakers, landladies, real estate men, cotton buyers, a restaurant owner, clerks, city commissioners, janitors, butchers, architects, an engineer, a blacksmith, a jeweler, a plumber, a tailor, glass worker, water superintendent, live stock raiser, telephone operator, mail carriers, bakers, picture show men, life insurance men, ranchmen, mechanics, government officials, a hotel keeper, lawyers, a well driller, a broker, factor, workers, teamsters, geologists, a garage manager, a matble worker and a bookkeeper.

This is according to statistics submitted by the registrar's office. Included were the ages of students the Normal proper, these running from 12 to 56. According to statistics there are more students enrolled at the age of 18 than at any other. Seventeen was the next age in point of number enrolled, there being 119 at this age as compared with the 155 enrolled at 18. Starting at 12 years and continuing in numerical order the ages run up to forty years, each year has at least two students enrolled. There are twice as many students enrolled between the ages of 15 and 20 than all other ages.

Many Religious Beliefs
Sixteen denominations are represented in church preferences, while 68 students have no preference. Each church and the number preferring it are as follows: Methodist 303, Baptist 298, Christian 263, Presbyterian 65, Church of Christ 14, Episcopal 8, Church of God 4, Catholic 4, Nazarene 4, Pentecost 2, United Brethren 2, Latter Day Saint 1, Holy Roller 1, Quaker 1 and Jewish 1. That the school is high morally is proven by the interest in church work, so large a percentage of the students being interested, it was said.

Thirty-nine counties of the state have students enrolled. Several counties have only one student enrolled while others have large numbers, the highest being an enrollment of 453 from McIntosh county. Three other states are also represented in the enrollment, there being 18 out of the state student here now.

Attendance records this year have been good, according to reports made by instructors in the larger classes. Grades for the summer have been comparatively high and a larger number of students than usual have made extra high grades up to this time. Another thing that is pleasing to the school is the small number of students who have been forced to drop out before the term ended. School closes for the summer on Friday of next week.

Twelve Red Rose Neophytes May Learn Secrets on Thursday

Red, Red Rose members and neophytes will meet at 7 o'clock Thursday night at the American cafe instead of after the initiation as announced yesterday, according to a statement today by Prof. Edward Davis, grand high provider.

An impromptu program consisting of speeches on 'The Old Man's Will' and other subjects will be given and many of the members will be called upon for the benefit of the Old Man who is coming down to Ada for his last time this year. After the banquet, members and neophytes will go to the Normal where about 12 candidates will be instructed in the mysteries of the order.

A great time is anticipated at this the last meeting of the year, members said.

Oneida Indians to Celebrate Arrival in Wisconsin Area

GREEN BAY, Wis., July 12.—Oneida Indians plan a centennial homecoming celebration here in August to mark the hundredth anniversary of the coming of the Oneida Indians to Wisconsin after they had been crowded out of their hunting and fishing grounds in New York state.

When they settled here in the fall of 1821 this part of the country was a vast wilderness with few white settlers.

Several thousand Indians are expected here for the celebration which takes place August 1 to 5. The Menominees, Chippewas, Stockbridges, Munsees, Brothertowns, Pottawatomies and Canadian Oneidas are looked for in great number.

Old Indian customs will be observed. Indian games will be played and an Indian council will be held. This centennial celebration may

be the Oneidas' first and last to be held, as the Indians are rapidly forgetting their old ways and are entering commercial and business life of every community.

Personal invitations will be extended by the Indians to President Harding, Commissioner of Indian Affairs Burke and Governor Blaine of Wisconsin.

INTEREST CONTINUES IN CHURCH REVIVAL

The revival at the Church of Christ on East Main street continues with interest unabated, according to reports this morning from members of the church. This evening the subject will be "What the Church does not use the instrument in its worship." Wednesday night the lesson will be "The Safe Way" and lessons on practical Christianity will be discussed each morning at 10 o'clock. A. E. Freeman, evangelist from Guthrie, is doing the preaching for the meeting.

PRINCIPAL OF NAPIER SCHOOL FIGHTS TRUANCY

A strict enforcement of the truant law to force all colored children to attend school was urged this morning by W. E. Ross, principal of Napier school here.

"There are colored children in Ada who cannot read and write and they are not going to school. The state of Oklahoma is spending thousands of dollars annually in building school houses, paying teachers, and making conditions right for children to attend. Allowing children to stay out of school continually in Ada must not be tolerated," he said.

With the truant law in operation, it will be necessary to add another teacher to the negro school, Ross declared.

SPANISH WAR VETS' PROGRAM ANNOUNCED

OKLAHOMA CITY, July 12. (Special).—The program for the annual meeting of the Spanish-American war veterans of Oklahoma here July 29 has just been announced. Tentative plans call for the appearance of Col. "Patsy" O'Neill, instructor of the state guard, as the principal speaker before the convention. O'Neill is a veteran of this war.

The women's auxiliary of the Spanish War veterans will also meet in the city, July 29.

For two bits the News can rent a house for you. For a dollar it can sell a farm. For five dollars it can get you anything or sell anything. Try it.

"I tell you the News want ads certainly bring results," is a statement made every day to the advertising department. Are you getting your share of these results?

Here's why CAMELS are the quality cigarette

BECAUSE we put the utmost quality into this one brand. Camels are as good as it's possible for skill, money and lifelong knowledge of fine tobaccos to make a cigarette.

Nothing is too good for Camels. And bear this in mind! Everything is done to make Camels the best cigarette it's possible to buy. Nothing is done simply for show.

Take the Camel package for instance. It's the most perfect packing science can devise to protect cigarettes and keep them fresh. Heavy paper—secure foil wrapping—revenue stamp to seal the fold and make the package air-tight. But there's nothing flashy about it. You'll find no extra wrappers. No frills or furbelows.

Such things do not improve the smoke any more than premiums or coupons. And remember—you must pay their extra cost or get lowered quality.

If you want the smoothest, mellowest, mildest cigarette you can imagine—and one entirely free from cigarette aftertaste,

It's Camels for you.

Camel
